## **RESPONSE TO AMENDMENT**

### ***Request for Continued Examination***

1. The Request for Continued Examination (RCE) under 37 CFR 1.53 (d) filed on April 14, 2006 is acceptable and a RCE has been established. An action on the RCE follows.
2. Claims 1-11, 13-19 and 21 are pending in the application.
3. Amendments to the claims, filed on April 14, 2006, have been entered in the above-identified application.

### ***REJECTIONS***

4. **The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.**

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-11, 13-19 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case amended claim 1 contain(s) the limitation “porous

bonding material.” The examiner is unable to locate in the specification where there is a discussion about the bonding material being porous. Support for porous materials can only be found for the membranes. Applicant is requested to either point out an explicitly show where they have support for this limitation in the specification or cancel the new limitation.

***ANSWERS TO APPLICANT'S ARGUMENTS***

6. Applicant's arguments in the response filed April 14, 2006 regarding the previous rejections of record have been considered but are moot since the rejections have been withdrawn.
